**Please summarize your top Cybersecurity challenges you need assistance with in the next 3-6 months. Please be as descriptive as possible and provide context around your current needs. (this ensures a relevant schedule):** we have many challenges facing our institution. we are currently undergoing a full ground up restoration of our current policies and procedures. we are well rounded on current cybersecurity initiatives but there is always room for improvement. we are in process of setting up with defense storm trak, nessus vuln management platform, along with knowb4. we are also looking for ways to improve our security posture with our movement into cloud services. \_x000D\_

\_x000D\_ we are looking for ways to improve our email security and implement dlp as well. we are looking to move toward netwrix for data auditing and classification but open to options. \_x000D\_

\_x000D\_ we are also adding a second internal data center that we will need to get setup and running and replacing our current firewall as well as adding one to the new data center. \_x000D\_

\_x000D\_ i am also open to listen to new ideas and ways of improving our current security posture.
